to the European Union*

Dear Mr. Jørgensen,

I was very pleased while meeting you at the Polish Christmas Eve on 18 December. Your interest for F. Chopin and his Swedish liaison was for me a real surprise. I'm under impression of your ability to use this little known episode from the life of Chopin to rise people attention for the tuberculosis.

Your project Icons of Europe may be a good tool for presenting in attractive form various important issues for our society.

I wish you a Happy New Year.

Sincerely yours

J. Tombiński
